

Red Team Operations and Documentation

Tools: HackMD, Draw.io, Trello

Tasks: Document attack techniques, create flowcharts, and build checklists.

Enhanced Tasks:

Technique Summary: Document a Metasploit exploit in HackMD, using 5 Red Team terms.

Attack Flowchart: Use Draw.io to diagram an attack path.

Checklist Creation: Create a Trello board with a Red Team checklist. Apply it to a Metasploitable2 attack and log completion status.

RoE Draft: Write a Rules of Engagement document for a mock Red Team engagement .
